Voter Numbered List of Voters

SEB Rule 183-1-12-.11(2)(a)

Effective July 19, 2026

Under a recent amendment to Georgia State Election Board Rule 183-1-12-.11(2)(a), poll workers are now required to record each voter's name on a numbered list of voters as part of the check-in process.

After a poll worker verifies a voter's identity and registration information, the poll worker will write the voter's name in ink on the numbered list before continuing the check-in process.

This is part of the process required under Georgia State Election Board Rule 183-1-12-.11(2)(a) and there is nothing additionally that the voter will need to do.

This additional step is expected to only add a few seconds to the check-in process.
